About Cargill

Cargill Limited is headquartered in Winnipeg, Manitoba and employs over 8,000 people across Canada. Our Canadian operations are named one of Canada's Top Employers, Canada's Top Diversity Employers and Canada's Top Employer for Young People.

Cargill Limited is one of Canada's largest merchandisers and processors. Our interests include the processing of beef, poultry, and oilseed, and the manufacturing of livestock feed. In addition, we are involved in crop input product retailing, as well as grain handling, milling, salt distribution and merchandising.

You will

In this internship role, you'll support the work of the Crop Inputs Sales team by:

- Support Cargill representatives with field scouting
- Assist with farm planning and field crop tour events held by Cargill
- Learn about contracting on grain and agronomy insights
- Learn and participate in tissue testing
- Other opportunities that may arise

You are

To be successful in this internship role:

- Have an interest/desire to work in the areas of agriculture and/or agronomy.
- Farm and crop knowledge are considered assets.
- Feel confident and have strong people skills.
- Strong skills for working and communicating virtually when needed.
- Be comfortable working both as part of a team and independently.

Other helpful information

- You should be comfortable using the Microsoft suite of applications (Word, PowerPoint, Excel, etc.), Microsoft Teams, and Zoom.

**Careers
on the Grow**

- A personal laptop will be needed as well as a reliable internet connection with audio/video conferencing capabilities will be required.
- Comfort supporting Cargill representatives in the field, networking with others and participating in hands-on experiences.
