

Ethics Review Request Form

4-H Canada Science Fair

Instructions

If your science fair project will involve the participation of humans or the use of animals, please complete this form and email it to 4-H Canada's Programs Department, program@4-h-canada.ca before beginning your project. Your science project will be reviewed and you will receive a response regarding project appropriateness or special measures that should be taken from the 4-H Canada Ethics Committee. Please refer to the 4-H Canada Science Fair guidebook available at 4-h-canada.ca/4HCanadaScienceFair for more information.

Questions to Be Addressed in Your Description (next page)

1. Is your project using vertebrate animals or cephalopods?

- Describe your proposed project in a paragraph.
- Describe any special precautions you will take.
- Where will you carry out these experiments?
- Who will be your scientific supervisor and what are his/her qualifications?
- Where will you obtain the animals?
- How will they be cared for during your project?
- What will happen to the animals after your project is finished?

2. Is your project involving human participation?

- Describe your proposed project in a paragraph.
- Describe any special precautions you will take.
- Where will you carry out these experiments?
- Who will be your scientific supervisor and what are his/her qualifications?
- How many people will participate in your experiment?
- What are the age ranges of the human participants?
- Include the [Informed Consent Letter of Information](#) and [Permission Form](#) you will use. These *provided templates are the forms participants will sign when agreeing to participate in your project.*
